

Introduction to Riemann Surfaces

Yu Liu
March 12, 2026

Abstract

This is a note on some basic results about Riemann Surface and Teichmuller space of a Riemann Surface.

Main Text

1 Superman is great

I think that superman is great!!! Because he can fly and have super strength.

Theorem 1.1

This theorem states that superman can fly, in mathematical way we can say:

$$F_G = 0 \text{ for super man} = 0 \quad M = 0 \tag{1}$$

This is an awesome theorem.

Superman can fly
